

Three Nooks Farm Update – 11th July 2016

Works are due to commence during July to carry out the civil works to reinstate the wellsite field at Nooks Farm. The central section of the wellsite, around the wellheads, will be retained in order to provide access but the surrounding area will be reworked to match the original profile as close as possible.

We envisage the civil engineering team will be on site for 4-5 weeks depending on the weather.
