## **INFINIS APPOINTS COMMERCIAL DIRECTOR**

Infinis Limited, the UK's largest generator of purely renewable energy, is pleased to announce the appointment of Steven Hardman as Commercial Director.

Steven joined Infinis on 27th May 2008, and as a member of the Management Team reports directly to Alan Lovell, Chief Executive. Steven will lead the commercial and legal activities of the company with a strong emphasis on future growth.

Steven was previously Group Legal Director for Waste Recycling Group plc (WRG) where he was responsible for the entirety of the group's legal affairs.

A qualified solicitor, Steven's early career was a corporate lawyer in the City of London prior to a period with Hanson plc.

Alan Lovell, Chief Executive of Infinis Limited, commented:

"I am delighted to welcome Steven to the team at Infinis. Steven brings unparalleled industry experience from his work with WRG, and we look forward to building the business with the addition of his sector knowledge and commercial acumen."

### **Notes to Editors:**

1. Infinis is already the largest purely renewable generator of energy in the UK. Infinis employs 260 people across more than 80 sites and produces 10% of the UK's purely renewable energy.

Infinis aims to become Europe's leading purely renewable energy generator, setting standards for operational excellence, innovation and quality. The company is growing both through organic development and through carefully focused acquisitions.

Infinis is well positioned to benefit from the rapid growth of the renewable energy market and is developing projects in other renewable energies, particularly wind generated energy supply. It has recently received consent for its first planning application for wind generation on its Greengairs site in Scotland.
