

13 March 2012

INFINIS APPOINTS CHIEF FINANCIAL OFFICER

The Infinis group, the leading UK independent renewable energy generator owned by Terra Firma, announces the appointment of Gordon Boyd as Chief Financial Officer with effect from 12 March 2012.

Gordon Boyd has over twenty years' experience in the power generation sector, including 15 years with British Energy plc and its predecessor Nuclear Electric. In 2005 he joined Drax Group plc as Group Finance Director and led the refinancing and public listing of the business on the London Stock Exchange.

Most recently he was Finance Director of the Energy Sourcing & Customer Supply (ESCS) division of EDF Energy plc which encompasses EDF's thermal and renewable generation activities as well as its electricity supply business.

Eric Machiels, Infinis' Chief Executive Officer, said:

"Gordon has a strong track record and brings a wealth of power industry experience to Infinis. He has extensive management experience in large utilities and has led complex projects within our industry. We are delighted to welcome him to the team as we focus on the delivery of our ambitious growth agenda.

"I would like to thank Jane Aikman, who Gordon succeeds, for her significant contribution to Infinis over the last five years. During the period, Infinis has grown rapidly both organically and through acquisitions."

NOTES TO EDITORS

Infinis

The Infinis group is a leading generator of renewable power in the UK, producing approximately 10% of the UK's renewable power in the year to 31 March 2011. It is owned by Terra Firma, a leading private equity firm.

Infinis employs approximately 400 people across 141 operating sites and has an aggregate generating capacity of 556MW, comprising:

- 123 landfill gas sites (343MW)
- 10 hydro sites (17MW)
- 8 onshore wind farms (196MW)

Infinis is currently the largest generator of landfill gas-to-electricity in the UK, with a market share of about 41%¹. It also has a strong onshore wind development portfolio comprising 55MW in pre-construction, 39MW consented, 137MW in planning, 119MW in development and approximately 390MW at various feasibility stages².

The group also has a growing hydropower business, operating ten hydro generating plants in the UK. It is building a pipeline of hydro development projects, primarily in Wales and in Scotland.

Infinis plans to expand its renewables footprint by pursuing further renewable diversification opportunities.
